Subject Bristol Bay State Selection Files

Phil,

I received your message this morning wanting to see the State's selection file on the lands the state acquired in Bristol Bay. The Bristol Bay area is quite large so there are likely many selection files associated with it so we would need for you to be more specific on if there is a particular area of interest or if you are looking to see everything within a certain boundary in order to know which files may be applicable. The state's selections are based off of Township, Range and Meridian so we would need that information. As far as looking at these files, someone would need to come into our office in Anchorage at 550 West 7th Ave., Suite 1050A to view them between the hours of 8:00 a.m. to 4:30 p.m.

If you plan on sending someone in please let me know so we can have someone pull the files you are interested in seeing in advance. Please let me know if there is anything else I can help with.
